

NAV-X COMMISSION MANAGEMENT

SPIFF PROGRAM - Easy Money for You!

THE COMMISSION MANAGEMENT CHALLENGE

Automated Commission Management functionality has always been a glaring GAP between what Microsoft Dynamics NAV and Microsoft Dynamics 365 Business Central users need and what's available natively. As a result, so many businesses spend an inordinate amount of time calculating and communicating commissions for and with their sales team members.

THE COMMISSION MANAGEMENT SOLUTION

NAV-X Commission Management solves this problem at a very affordable price and is easily justified when comparing the investment vs. the labor costs of their current commission methodology.

THE SPIFF PROGRAM

To encourage your interest in sharing NAV-X Commission Management functionality with your clients, we will provide anyone referring leads to NAV-X (as long as they work for a Dynamics NAV or Business Central partner) with a \$500 spiff per client who then subscribes. In addition, the Dynamics NAV or Business Central Partner for whom the referrer works will also receive \$500. We created a lead registration page for you.

<https://dynamics365commissions.nav-x.com/refer-a-lead/>

When you have a client or prospective client you believe can benefit from NAV-X Commission Management, simply submit the opportunity. We will confirm receipt within 1 business day and let you know, if someone else previously submitted the lead. Once approved, we will provide you with a disposition report on a monthly basis to inform you of any subscriptions. Spiffs will be paid during the month following the month of subscription.

MANY THANKS!

We appreciate your partnership and hope you can share the high value of NAV-X Commission Management with your clients while earning something for yourself.

Should you have any questions about this offer, please contact Joanna Hines at jhines@nav-x.com.

ABOUT NAV-X LLC

NAV-X, with its roots deep in the rich history of Microsoft Dynamics NAV and Dynamics 365 in the North American market, is a publisher of functionality commonly required by distribution and manufacturing businesses, but unavailable in native NAV. Since 1996, our team has been developing this functionality and built a codex of Best Practice solutions. These solutions provide our partners and their clients with reliable and repeatable competitive advantages.
